

BAHRIA COLLEGE ISLAMABAD ZAFAR CAMPUS

Work sheet and Notes for Class 8th

Chapter No:4

AGRICULTURE AND MAIN CROPS

Q5: Why are there no large Paddy field as there are for other grains?

Ans.: Paddy fields have to be small because they have to be under water for the initial stages of germination. This means that the plots have to be completely level and it is difficult to find large areas which are flat enough.

Q6: Do you know what animals are preferred for Livestock Farming in Pakistan ?

Ans.: Animals preferred for Livestock Farming in Pakistan are Cattle , buffalo , Camel , horses , goats , Sheep and poultry birds etc.

Q7: Although fish is not as easily available as staple crops, it is a valued product why?

Ans.: Fish is a valued product due to its nutritive value and various uses , such as for fertilizer and animal feed etc.

Q8: What do you know about
